PS 450 - PS 450i

Vertical Packaging Machine

INDUSTRIES

STYLES

PILLOW

BLOCK BOTTOM

STABILO BAG

STANDARD FEATURES

The PS 450 intermittent vertical form fill and seal machine is designed to provide a high speed packaging solution, for the food and non-food industry.

It is an electronically-pneumatically driven, compact, painted steel machine, with quick and simple change-over and maintenance.

In the inclined version PS 450i, the machine is at its best. Particularly suitable for delicate and crumbly products, standard inclination 45°.

Motorized film unwind

Pulling belts

Cross sealing

Vertical sealing bar

OPTIONALS

- **PS 450i inclined version (45°)**
- **Pneumatic square bottom forming system**
- **4 sealing forming tubes (stabilo bag)**
- **Automatic print centering**
- **Automatic reel centering**
- **Industry 4.0 compliance**
- **Eurohole**
- **Integrations with various weighing systems, code daters, labeling and clipping machines**
